Mazda's implementation of brand diversification reflected a Japanese engineering philosophy, called Kansei engineering, which was used as an advertising slogan in North America. One of the oddest sub-marques was M2 , used on three rare variants of the Eunos Roadster (the M2-1001, M2-1002 and M2-1028) and one of the Autozam AZ-1 (M2-1015).

An engineering approach to improve the overall waste incineration efficiency is to separate pyrolysis from actual combustion and burnout processes of the waste (Malkow, 2004). In industrial scale schemes, external separation requires pyrolysis reactors whilst firing products (e.g. char, waxes, etc.). One of the main technologies incorporated by a number of plants in Austria, Germany, Korea ...
