Lake Okeechobee is one of the largest freshwater lakes in the United States. As a eutrophic lake, it has frequent algal blooms composed predominantly of the cyanobacterium genus Microcystis. Many of the algal blooms are associated with the resuspension of a thixotropic benthic mud containing legacy nutrients. Since Lake Okeechobee has an area of 1732 km2 (40–50 km radius) and a mean ...

3.1 Introduction: Convection: Heat transfer between a solid surface and a moving fluid is governed by the Newtons cooling law: q = hA(Ts-T), where Ts is the surface temperature and T is the fluid temperature. Therefore, to increase the convective heat transfer, one can Increase the temperature difference (Ts-T) between the surface and the fluid. Increase the convection coefficient h. This can ...

Port Manteaux churns out silly new words when you feed it an idea or two. Enter a word (or two) above and you'll get back a bunch of portmanteaux created by jamming together words that are conceptually related to your inputs. For example, enter "giraffe" and you'll get back words like "gazellephant" and "gorilldebeest".

Once fluid retention has resolved, treatment with the diuretic should be maintained in some patients to prevent the recurrence of volume overload. Patients are commonly prescribed a fixed dose of diuretic, but the dose of these drugs frequently may need adjustment. In many cases, this adjustment can be accomplished by having patients record their weight each day and adjusting the diuretic ...

-Having a gender-fluid character love Harry Potter is really stupid.-At this point not punishing Robertson is just stupid. Even if 13 isn't as ruthless as 6 or 7, would any other Doctor let a man who tried to sell humanity to the Daleks walk away at the end to achieve greater power. Just dump Robertson on a fertile planet with no life more intelligent than a fungus, or leak his betrayal to the ...
